\$10 Student

.....

The 2014 harvest is nearing completion. Hear from a panel of experts how this year's harvest is impacting commodity prices, financial investments, and the ag economy today and in the future.

How does harvest impact the ag communicator? We'll talk about that, too, with our distinguished panel that includes a farmer, market analyst, grain processor and equipment expert. Max Wenck, principal at MorganMyers, will serve as moderator, bringing his professional experience to the table as well as his personal experience as a farmer and rancher.
